THE GOLDEN GATE BRIDGE

531 全体
(① ~ ⑦)

532 一文
①

After walking through the redwood forest, the Green family drove back toward San Francisco. Before crossing the Golden Gate again, they got out of the car to look at the beautiful view of the city from the north end of the bridge. Jiro wrote about it in an e-mail to the ESS club at his school in Kobe.

② 5 Hello from San Francisco!

I'm sending you some pictures of ourselves at the Golden Gate Bridge. The bridge looks good in pictures, but you have to see it with your own eyes in order to feel its real beauty. It's not as long as the bridge between Akashi and Awaji Island, but I find it much more beautiful. After arriving at the hotel, I found this on the Internet.

③/532 ② ~ "This long red bridge stretches across the Golden Gate, the deep narrow opening between the Pacific Ocean outside and San Francisco Bay inside. It's more than three kilometers long. The two towers are 230 meters tall, and the road is 70 meters high at the middle of the bridge.

"Imagine yourself at the top of one of the towers, 230 meters above the ocean!" ④
On a clear day you can see ships which are 30 miles away with your own eyes, even without using binoculars!

"It's surely one of the most beautiful bridges in the world. When the architect ⑤/532 ③ ~ who designed it had finished building it, he himself said, 'This is the most beautiful 5 thing that I have ever built.'"

Kevin White's cousins and I walked across the bridge by ourselves. Their ⑥ parents drove across and met us again at the other end. It's worth visiting someday.

I'll be leaving America on January 3. See you soon. ⑦

Well, I want to be in that number,
When the saints go marching in.
